

# Practical ML Tutorial: Part I

---

George Williams

# Workshop Collaborators

Trevor Peyton  
Machine Learning Researcher  
UT Chattanooga

James L. Carpenter (Jake)  
Graduate Research Assistant  
UT Chattanooga

Stephen Lawrence  
Graduate Research Assistant  
UT Chattanooga

# Agenda

## Part I

- AI Trends
- ML Basics
- Survival Analysis
- *Hands-On Programming*

# Agenda

## Part I

- AI Trends
- ML Basics
- Survival Analysis
- *Hands-On Programming*

## Part II

- AI Hardware
- FastAI and Pytorch Basics
- Computer Vision
- *Hands-On Programming*

# Hands-On

- Use contemporary software tools
- Web-based
- Tactile learning
- With Caveats...

# Workshop Hardware

# Workshop Software

# AI Trends

- ChatGPT
- Stable Diffusion
- Deep Fakes
- Alpha Fold
- Foundation Models

Perceptron (P)

Feed Forward (FF)

Radial Basis Network (RBF)

Deep Feed Forward (DFF)

Recurrent Neural Network (RNN)

Long / Short Term Memory (LSTM)

Gated Recurrent Unit (GRU)

Auto Encoder (AE)

Variational AE (VAE)

Denoising AE (DAE)

Sparse AE (SAE)

Markov Chain (MC)

Hopfield Network (HN)

Boltzmann Machine (BM)

Restricted BM (RBM)

Deep Belief Network (DBN)

Deep Convolutional Network (DCN)

Deconvolutional Network (DN)

Deep Convolutional Inverse Graphics Network (DCIGN)

Generative Adversarial Network (GAN)

Liquid State Machine (LSM)

Extreme Learning Machine (ELM)

Echo State Network (ESN)

observation

# Survival Prediction Is Probabilistic...

# Survival Prediction Is Probabilistic...

$$S(t) = \Pr(T > t)$$

...and we can use the data we have to predict the remaining life of each of a group of machines. To understand how this can be done, it's easiest

# Survival Prediction Is Probabilistic...

Shape  
Scale

Total lifetimes for failure examples

# Machine Learning Approach

Beyond Curve-Fitting

- Learning from data
  - Multiple underlying distributions
  - Best of both worlds: distribution-driven + learning-driven
-

**PW:** [ see note ]

**URL:** [ see note ]

**LOGIN:** [ see note ]

**PW:** [ I will provide ]

- Your own Python interpreter runs on a mac-mini (“kernel”)
  - Follow me and wait to “experiment”
  - Issues
    - check WIFI
    - open new tab and re-login
    - new profile and login
-
